

Anthony Fiore

February 15, 2019

Rick Hibell

Patricia Snell

"Middletown for Clean Energy" would like to reserve 30 minutes with you, individually (or 2 at time, with others as you wish), at a place and time of your convenience, to review what we can contribute to Middletown, based upon the following principles:

VISION: Our legacy of a town (and world) where our children and grandchildren can flourish (i.e., leave it better than we found it)

MISSION: Make Middletown a leader among NJ towns in committing to and achieving 100% Clean Energy by 2050.

NEAR-TERM BENEFITS:

- Attraction for clean energy businesses and jobs
- Prestige as a leader among NJ towns and enhanced quality of life for residents
- Improvement in air quality, people's health and general cleanliness of the town
- Attainment of Sustainable Jersey Silver Certification and Gold Star in Energy

On Feb 13, we met with Mayor Tony Perry

During 2018, we met with Kevin Settembrino

Looking forward to our meeting,

Steve and Pat Miller

Middletown for Clean Energy

CC: Mayor Tony Perry and Kevin Settembrino
